Minimize Risk. Reduce Cost.

MAINTENANCE PROGRAMS TO IMPROVE HOSE SAFETY

Reduce the risk of hose failures through routine hose inspections, testing and certification programs. Our team will provide on-site hose audits, and consultant services for proper hose selection regarding various applications.

Our OnGuard™ hose management services includes testing, tagging and traceability of your hoses from “cradle to grave”. These proactive programs help you avoid costly equipment downtime, maintenance costs and reassure you that your hoses are working efficiently and safely.

Our hose assembly and testing processes fully comply with Hose Safety Institute guidelines for hose fabrication. Our fabricators and sales personnel are tested and compliant to these standards.

Hose Testing & Management

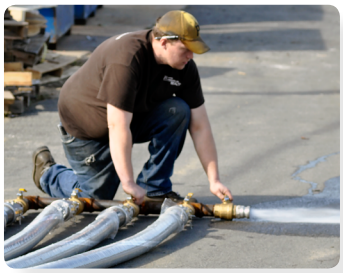
YOUR FIRST LINE OF DEFENSE AGAINST:

Hose Failures
Leaks/Spills
Costly Downtime
Accidents
Injuries
OSHA/EPA Fines

PROVIDING ANSWERS TO YOUR TOUGHEST QUESTIONS

Are our hoses safe and in compliance?
Have our hoses been tested?
Are our employees safe?
Where is the documentation on our hoses?
Can I locate our hoses?
Are our hoses properly installed?
Are our hoses tagged and well-maintained?
Is our equipment safe?

Safety and compliance through our expertise and technology. We bring our hose expertise and hose management services to your door. We are there exactly when you need us and provide peace of mind when you are on your own. Our team is trained and certified to provide on site hose testing service to requalify hoses and provide hose installation support and training. Test reports are also provided upon request and always stored in our OnGuard™ Asset Tracker database. Track all of your assets- industrial hoses, hydraulic hoses, gaskets, conveyor belts, and other products in one database.

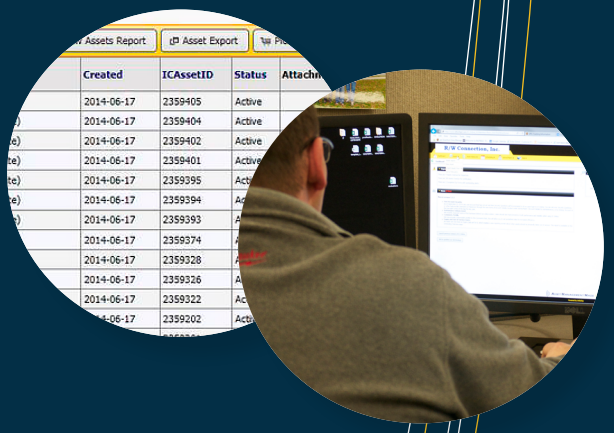


Testing

We can pressure test hoses up to 50,000 psi., utilizing various in-house hose test procedures & equipment.

Tagging

All hoses are tagged with unique hose ID and customer specific information.



Tracking

Cloud-based OnGuard ™ Asset Tracker provides full hose asset tracebility

solutions for *your* peace of mind

- Onsite Testing
- Onsite Hose Inspections
- Safety Audits
- Safety Seminars
- Customized Reports
- RFID Capability
- Serialized Hose Tagging
- Hose Kitting
- Vendor Managed Inventory

MAINTAINING HOSE ASSEMBLY INTEGRITY

OnGuard™ Hose Management Services include cloud based hose tracking which we manage for you. OnGuard™ Asset Tracker is our proprietary cloud based asset management database. OnGuard™ Asset Tracker stores all of your hose information including type of hose, date of manufacture, test certs, serial number, location in your facility, inspection and re-testing alerts.

Everything you want to know about your hoses -- whenever you need it, all day, every day.
