

# Specialty Service Hose - Sewer Cleaning Hose

The Gator™ Hose from Eaton is the premier thermoplastic sewer cleaning hose in the market, preferred and specified by both OEM's and Municipalities. Each of the hoses are manufactured with a blue thermoplastic elastomer tube, a high strength textile braid and an ether-based polyurethane cover. Hose cover colors coincide with pressure ratings as outlined below.

Each length of Gator Hose is sold as a fully pressure tested assembly manufactured by Eaton in lengths from 50 to 1200 ft.

These hoses are also available as multi-line or twin-line constructions and meet WEMI specifications.

## FC701 Hose

Product Number	Hose Color	Hose I.D.	Hose O.D.	Max Op. Press.	Min Burst Press.	Min Bend Radius	Cov. Thick.	Weight
