

INDUSTRIAL STANDARD POWER UNITS

QUICK SHIP PROGRAM

ASI Hydraulics introduces their new Industrial Standard Power Unit line in a Quick Ship Program. The new Quick Ship Program will allow for a 2-week delivery during normal business hours of a standard ASI Power Unit. This program will allow for maintaining the high standard of quality and design for which ASI Hydraulics has come to be known, even when a quick delivery is required.

Typical Industries:

- Pulp and Paper, Forest Products
- Power Generation
- Surface, Underground, Precious Metals and Coal Mining
- Food Processing / Packing Plants
- Injection Molding
- Oil, Gas and Petroleum Refining
- Chemical Processing
- Agriculture
- U.S. Government, Military
- Construction
- Railroad
- Industrial and Automotive Manufacturing
